

ONLINE TEACHING AT LPGL

To Little People's Greater Life and Clear Lake Child Care families, friends and, local community:

In addition to continuing our normal operations, we are planning to provide services of teaching and aiding grades K-12 via Clear Connections Online Learning (through CCISD). Although we know some students may return back to school, many will not. CCISD has continuously been updating and changing their reopening schedule by providing different ways to learn: Brick and Mortar, Intermittent School to Home, and Clear Connections Online Learning. As the first two weeks are being taught online via ItsLearning or other platforms, we will begin teaching the kiddos on August 24th, 2020.

LPGL/CLCC will require \$25 per week per child in addition to weekly tuition or NCI fees and will be due for the upcoming week.

Our teachers will:

- Complete all homework with your children
- Prepare them for quizzes or tests
- Give parents and guardians weekly updates and areas to work on with your children
- Support the children in this difficult transition
- If your child is absent one day, we expect them to complete any assignments due on that day

Parents should provide:

- A reliable device to work on
- Student log in information
- **Pay \$25 per week per child**

At the center of LPGL AND CLCC's purpose is a commitment to educate and support, and it's something we take to heart at all times.

All additional charges are subject to change and teaching is not guaranteed for the whole school year.

If your family is interested in our Online Teaching at LPGL/CLCC, please let us know by or before August 21st, 2020.
